

BUG REPORT

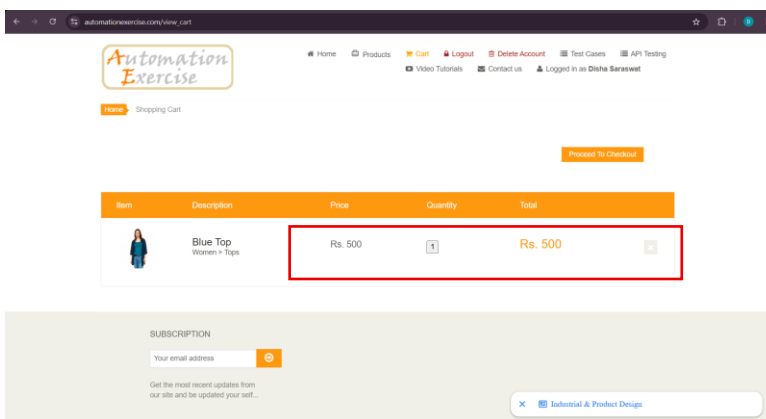

Bug 1:

Expected Result

The user should have an option to browse or add more products directly from the Cart page (e.g., an "Add More Products" button).

Actual Result

The Cart page only allows users to remove items or proceed to checkout. To add more products, the user must navigate back to the Products page.

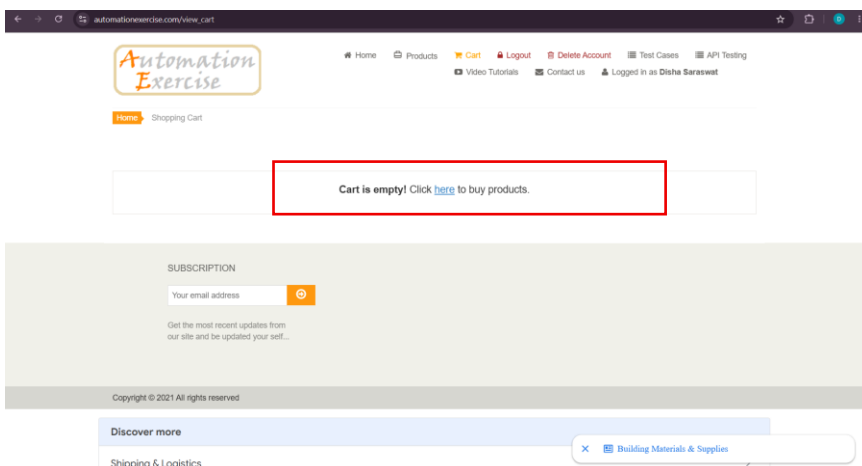

Bug 2:

Expected Result

The system should ask for confirmation before deleting the product.

Actual Result

The product is removed immediately without any confirmation.

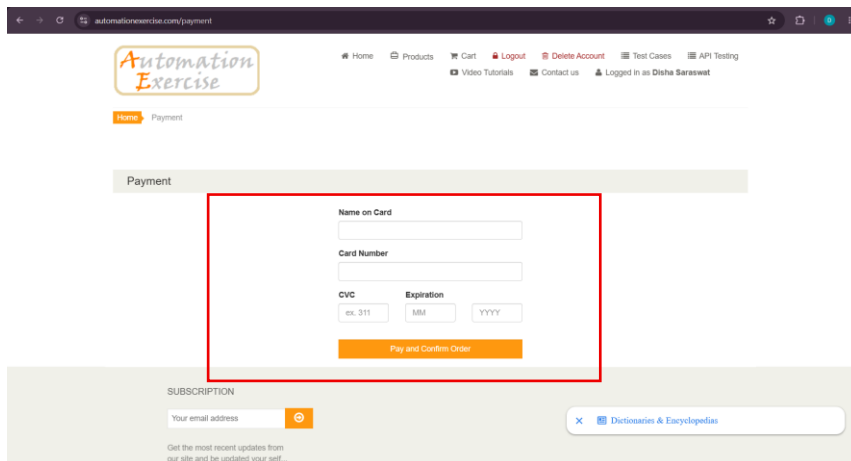

Bug 3:

Expected Result

Cash on Delivery (COD) should be available as a payment option.

Actual Result

Only card payment is supported.

The screenshot shows the 'Payment' page of the 'Automation Exercise' website. The page has a navigation bar with links: Home, Products, Cart, Logout, Delete Account, Test Cases, API Testing, Video Tutorials, Contact us, and Logged in as Disha Saraswat. Below the navigation bar, there's a breadcrumb trail: Home > Payment. The main content area is titled 'Payment' and contains a form for card payment. The form fields are: Name on Card, Card Number, CVC (with a hint 'ex. 311'), and Expiration (with hints 'MM' and 'YYYY'). A 'Pay and Confirm Order' button is at the bottom of the form. Below the payment form, there's a 'SUBSCRIPTION' section with a text input for 'Your email address' and a button with a plus icon. At the bottom right, there's a search bar with the text 'Dictionaries & Encyclopedias' and a close button 'X'. The footer contains the text 'Get the most recent updates from our site and be updated your self...'.

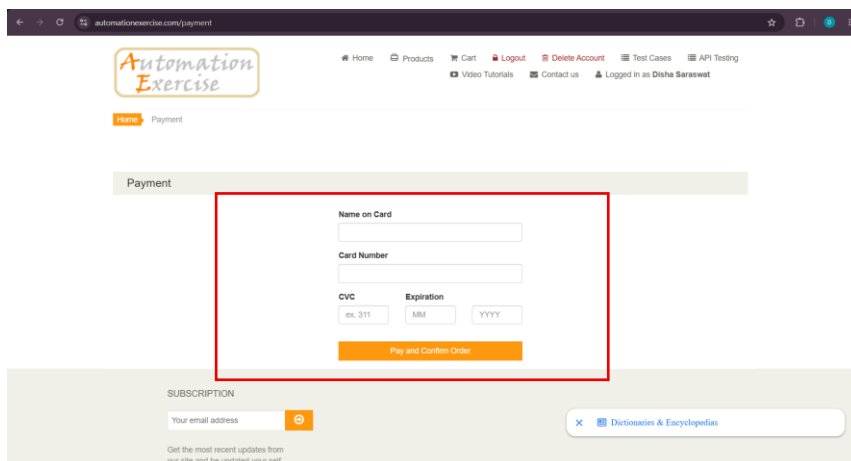

Bug 4:

Expected Result

Users should have the option to pay using UPI.

Actual Result

No UPI payment option is available.

This screenshot is identical to the one for Bug 3, showing the 'Payment' page of the 'Automation Exercise' website. It highlights that only card payment options are available, with no UPI option present.

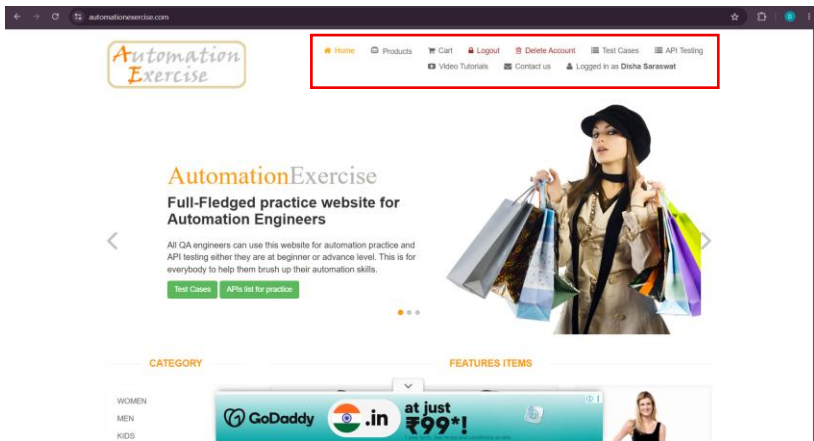

Bug 5:

Expected Result:

Users should be able to save products for future purchase.

Actual Result:

No Wishlist feature is available.

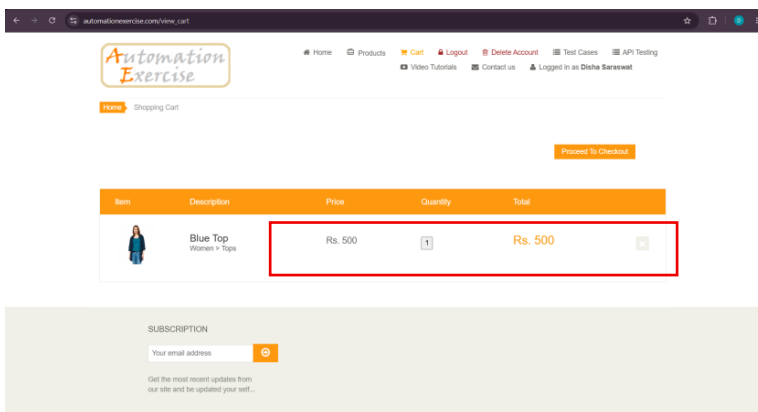

Bug 6:

Expected Result:

Users should be able to move items from Cart to Wishlist.

Actual Result:

Only Remove option is available.

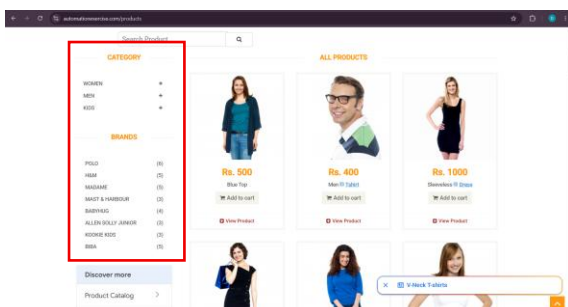

Bug 7:

Expected Result:

Users should be able to filter products by price range.

Actual Result:

Price filtering is unavailable.

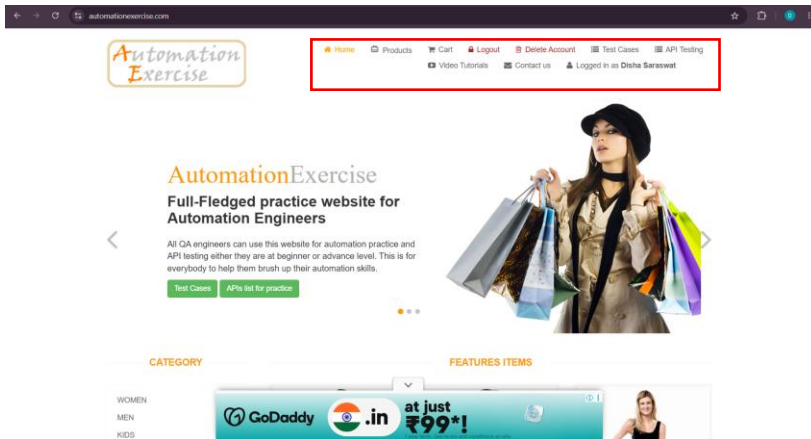

Bug 8:

Expected Result:

Users should have light/dark theme options.

Actual Result:

Dark mode is unavailable.

Bug 9:

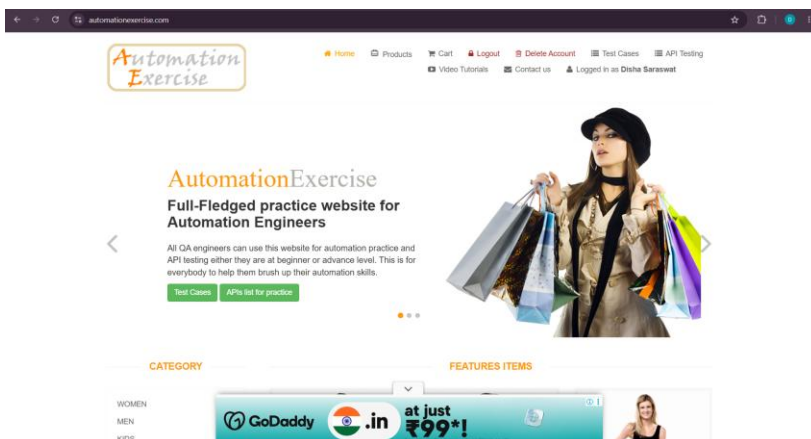

Expected Result

Users should have a **Settings/Profile** page where they can:

- Change password
- Update email address
- Edit personal information
- Manage account preferences

Actual Result

There is no dedicated **Settings** or **Profile Management** page available after login.

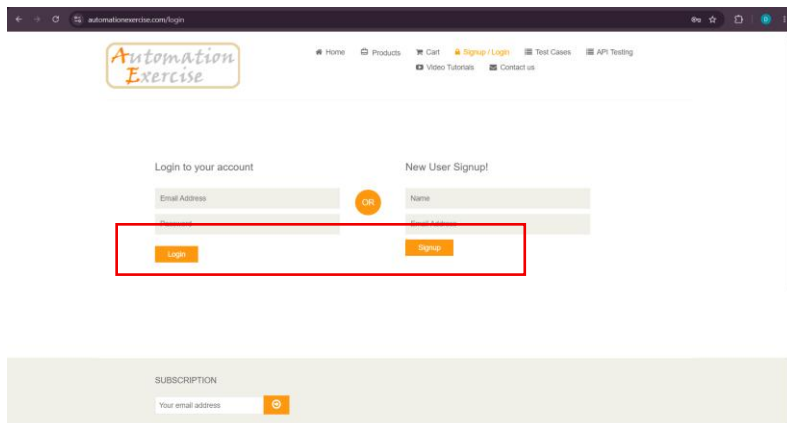

Bug 10:

Expected Result

A Forgot Password? link should be available.

Actual Result

No Forgot Password option is available.

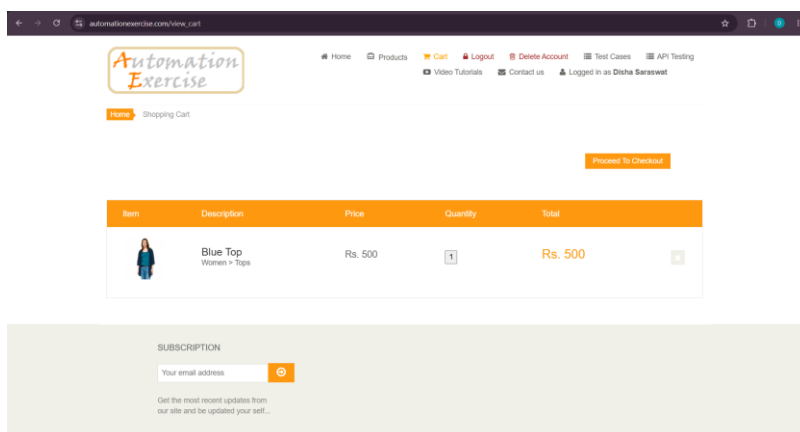

Bug 11:

Expected Result

Users should be able to enter a coupon code and click Apply Coupon.

Actual Result

No coupon/promo code field is available.

Bug 12:

Expected Result

Users should be able to see other users review.

Actual Result

Other users reviews are not here.
